## Events Pushing U.N. Into Action on Suez

By JESSE ZEL LURIE, Jerusalem Post Correspondent  
UNITED NATIONS. — Three developments yesterday have increased the urgency with which the Secretary-General's office and leading delegations regard the Ingo Toft's continued detention and point up the necessity for greater efforts by Mr. Hammarskjöld and the maritime powers to secure free passage through the Suez Canal.

These developments are:

1) The Israel Cabinet's announcement that it is considering a number of possible actions which may have many delegations guessing what Israel's next move will be.

2) The report of the air battle near the Sinai border and the closing of the Jordan-Syria border, both of which have added tension in Egypt.

3) A report from Cairo in the "New York Herald Tribune" which emphasizes the need for Washington to take firm action.

Joe Morris reports from Cairo that the Ingo Toft's detention is threatening to dissolve in one stroke the carefully nurtured and improving relations between the U.S. and the U.A.R. Morris points out that the Danish ship is chartered to an American company and that the American Embassy in Cairo is "in duty bound to try and protect its property." However, so far American officials in Cairo have only "soundered out" U.A.R. officials on the cargo and the U.S. has not yet made any official demarche to the U.A.R. Government.

### U.S. LACKS FACTS

In Washington, the State Department spokesman, Mr. Lincoln White, said on Monday that the U.S. does not yet have precise information regarding the case of the Ingo Toft.

He said the situation had not changed since Thursday, when he announced the fact that the U.S. is monitoring the situation and its implications. The discussions, he said, are being conducted with foreign representatives in Washington, as well as in a number of foreign capitals including London and Copenhagen, as well as in Jerusalem and Cairo.

The "Washington Post" said on Monday that Cairo's action can scarcely stand the scrutiny of either international law or sound international practice.

"Understandably some governments may be reluctant to irritate the U.A.R. at a time when relations with Cairo and pro-Communist capitals have improved," the "Washington Post" says, hoping that the matter may be settled through negotiations. However, it concludes, "the world community cannot in good conscience avoid facing the fundamental issue involved. Equivalence in a similar instance in 1956 helped create armed conflict; forthrightness now may avoid new troubles."

The influential Paris paper "Le Monde" said in a front-page editorial on Monday evening that the Ingo Toft seems to have been motivated by the desire to force Jordan and Iraq—which have shown little sympathy for Nasser of late—to rally behind him once more at Israel's expense.

"Le Monde" declared that there was an important lesson for the West in Ben-Gurion's latest analysis of the Middle East situation (in an interview with U.P.I. published on Monday) in which he asserted that the quarrels between the Arab states result only in their bidding to show which is more hostile to Israel.

The paper concludes that inter-Arab conflicts in no wise favour the Western nations.

### Lebanon Seeks Talks On 'Israel Aggression'

CAIRO (Reuter). — Rashid Karameh, the Lebanese Prime Minister, returned to Beirut by air on Monday after a two-day visit in which he signed an economic and trade agreement with the U.A.R.

Karameh told reporters that during his visit he had suggested in talks with Abd al-Nasser an Arab meeting to discuss "Israel aggression."

LOCAL ELECTIONS IN  
U.A.R. NEXT MONTH

CAIRO (Reuter). — A presidential decree issued on Monday ordered that elections of local committees of the National Union in towns and villages of the U.A.R. should take place on July 15.

### A MEMORIAL MEETING

will be held on the thirtieth day after the passing away of

## REUVEN SHILOAH

today, Tuesday, June 9, 1959, at 5 p.m.  
at Beit Hahabrut, M Rehov Ibn Gvirol, Jerusalem.

Memorial address by the Prime Minister,  
Mr. David Ben-Gurion.

The unveiling of the tombstone will take place on the same day at 3:30 p.m. at the Sanhedria Cemetery. A special bus will leave at 3:10 p.m. from the Hahabrut Bldg., Rehov Hapoalim, Jerusalem.

The Ministry for Foreign Affairs  
and Staff

We wish to express sincere thanks to all our friends and acquaintances for the many expressions of condolence and friendship extended us in our grief on the untimely death of our beloved father

DAVID FEDERMANN

The Federmann Families

## Nato Withdraws Atom Planes From France

### EXPRESS DELIVERY

WASHINGTON (UPI). — President Charles de Gaulle served notice on Monday that France is going to make no further commitments to the North Atlantic Treaty Organization unless and until the U.S. and Britain give up their atomic secrets with her.

AMMAN (Reuter). — M. Pierre Spinelli, Special Representative in Jordan of the U.N. Secretary-General, suddenly arrived on Monday under orders from Mr. Hammarskjöld to discuss the border tension between Jordan and Syria.

He was immediately received by Prime Minister Hazza Majali and later had an audience with King Hussein. It is believed that he will also meet with U.A.R. officials.

ANA reports that on Monday a convoy of 40 trucks carrying food and many petrol tankers on their way from Beirut to Amman had been stopped on the Syrian-Jordan border. Only cars belonging to the diplomatic corps or bearing Lebanese licence plates were allowed through.

## Israel Vautours' First Action

Jerusalem Post staff

A Lebanese Air Force crew left today (Tuesday) cross into Israel at Rosh Hanikra to fly the Lebanese "Savoy Marquette" light bomber, now at Haifa airport, back to Lebanon.

The decision to return the plane, which was shot down by the Israeli Air Force over Israel territory on May 27, was taken on Sunday, countering a previous decision to confiscate it.

Political quarters in Jerusalem emphasized the fact that the Israel relations with Lebanon are quite different from those with the U.A.R. and since Lebanon does not invoke belligerency against Israel and shows more respect for the armistice agreements between the two countries, Israel has agreed to Lebanon's persistent requests for the return of the plane.

It is understood that U.N.T.S.O. personnel are to handle the crossing of the Lebanese air crew into Israel territory and vice versa, according to their way from Rosh Hanikra to Haifa.

A Lebanese vessel detained in Israeli waters will also be returned to the Lebanon, on Tuesday, off Rosh Hanikra. On Monday, 12 lambs, belonging to Kibbutz Bar-Am, which had been captured last week, they also returned 12 cows belonging to Kibbutz Sasa which wandered into the Lebanon.

CAIRO MEET  
BOYCOTTED

Beirut. Radio reported on Monday that the Governments of Jordan, Iraq and Tunisia had informed the Arab League Secretariat that they would not attend the All-Arab Social Welfare Conference which opened in Cairo yesterday.

### SYRIANS ALLEGED TURKS INFILTRATED

DAMASCUS (Reuter). — Usually reliable sources said here on Monday that the security authorities in Kamishli, northeastern Syria, have arrested 10 Turks, including one woman, on a charge of crossing the Syrian border illegally.

The spokesman said a number of Army officers had been arrested and charged with being behind the Yemeni disturbances last month, a Yemeni spokesman announced here on Monday.

The spokesman said a number of Army officers had been arrested and charged with being behind the Yemeni disturbances last month, a Yemeni spokesman announced here on Monday.

One question understood to have been considered at the meeting was the problem of detection and control of nuclear explosions at high altitude—over 30 miles from the earth's surface.

## Adenauer in Bonn Flare-Up

BONN (Reuter). — A brief quarrel broke out between Chancellor Konrad Adenauer and one of his critics, Red-faced Gerstenmaier, rushed out of the meeting of the Christian Democrats' parliamentary executive, shouting something over his shoulder.

He refused any explanation, but returned after half an hour saying "something had happened" making it enabling him to rejoin the session.

Before the meeting, Gerstenmaier had told reporters "I am against the whole thing (Adenauer's decision to remain Chancellor instead of standing for President). But where are we to do? We cannot force him to become President."

Meanwhile, Vice-Chancellor Ludwig Erhard, who is also Economics Minister, decided on Monday to cut short his visit to the U.S. and return by air last night instead of all 10 will be tried, the sources said.

CAIRO (AFP). — The Turkish President, Mr. Celal Bayar, arrived today for a state visit to Italy. He and his 19-man party were welcomed at the airport by Prime Minister Giovanni Gronchi.

The Turkish visitors include the Chief of Staff and the Chairman of the Parliamentarian Foreign Affairs Committee.

Prior to his departure, Erhard had talks in Washington with Vice-President Richard Nixon "to remove any twilight from the political situation in Germany."

Erhard told reporters after the meeting: "I wanted to make clear that in Germany there is not only one man who is loyal to the West."

Erhard holds the key to the grave political crisis caused by Adenauer's decision.

If he resigns because Adenauer has plainly shown he does not want him as his successor, the crisis will continue and there will be a danger of a split in the ruling Christian Democratic Party.

Erich Ollenhauer, leader of the opposition Social Democrats, on Monday met Heinrich Krone, parliamentary leader of the German Social Democrats for talks on Adenauer's decision. Ollenhauer has said he regards the decision as a betrayal of democracy.

(Rocking the Boat — Page 4)

POTATO RIOT IN VESUVIUS VILLAGE  
NAPLES (UPI). — Rioting farmers set fire to the town hall and tax office of the village of Marigliano on Monday, in protest over the low price of potatoes.

The rioters cut telephone lines and overpowered the little police force of Marigliano, a village of 18,000.

The farmers were protesting against the low price paid by wholesalers for potatoes, one of the main crops in this area on the northern slopes of Mt. Vesuvius.

Police reinforcements, who at one point used tear-gas to disperse the rioters, arrested 88 persons.

## Russia Sees Early End To Geneva Talks

GENEVA (Reuter). — The Post Office Department announced that approximately 3,000 letters were delivered at nearly the speed of sound from a guided missile submarine in the Atlantic to a Naval air station at Mayport, Florida.

The successful experiment was hailed by authorities here as "of historic significance for the peoples of the entire world."

The mail shipment was carried by a Regulus I training guided missile.

The reason is that France will not allow atomic weapons on her soil unless she can share control of them. Neither the U.S. nor Britain has been willing to share this control.

The planes must therefore fly to Britain or West Germany.

In reply to questions about the reason, Mr. Eisenhower said Congress on Monday to increase the interest rates of savings bonds to abolish the interest restriction on Treasury securities and boost the national debt ceiling.

A special message to Congress, Mr. Eisenhower said the three steps are needed to "safeguard the public credit."

He asked:

• That the interest on savings bonds be raised from 2.26 per cent to 3.75 per cent.

• That the 4% per cent interest rate limit on new issues of mandatory treasury bonds be eliminated.

• That the legal national debt ceiling be increased to \$20,000,000,000, from a permanent base of \$20,000,000,000. Under present law, the permanent debt limit is \$28,000,000,000.

In asking Congress to abolish the interest ceiling on Treasury bonds, he said that "artificial ceilings make it virtually impossible to sell bonds in the competitive market."

## YEMENI SECURITY CHIEF ARRESTED

CAIRO (Reuter). — The Yemeni Director of Public Security, Kadi Yehia El-Emary, has been arrested and charged with being behind the Yemeni disturbances last month, a Yemeni spokesman announced here on Monday.

The spokesman said a number of Army officers had been arrested and charged with being behind the Yemeni disturbances last month, a Yemeni spokesman announced here on Monday.

**Zionist Council Adopts Motions On Aliya, Suez and Soviet Jewry**

By SHALOM COHEN, Jerusalem Post Reporter

The Zionist General Council on Monday adopted close on 90 resolutions, including one to speed the process of immigration from all countries, a call for unrestricted shipping through reconfirming the Zionist Movement's faith in the Jewish People's continued aid to Israel.

The resolutions were approved — almost all unanimously — by the Council in plenary session, after they had been formulated in their respective Council committees.

The 10-day Council meeting in Jerusalem ended yesterday (Tuesday) with resolutions on changing the organizational structure of the World Zionist Organization, aimed at facilitating the affiliation of outside Jewish organizations and on the Law of Return.

The main resolutions yesterday were:

**Immigration**

A plan for aliyah from Western Asian countries is to be drawn up by the Jewish Agency's Immigration Department. The Department will study the possibilities of immigration from countries in which Jewish communities exist, especially those where there are only small Jewish communities.

A scheme for bringing in families with a son means, which the Agency will study, to the cost of their absorption to be separately implemented by the Immigration Department.

There is need to set up a Jewish Agency committee to study problems of immigration and the possibilities of aliyah from various countries.

The Council voted to pay tribute to the late Yosef Hayim and Rafael Ben-Gurion, who were murdered while carrying out their mission of rescuing Jews in Africa.

**Political**

The Council, after expressing the views of the World Zionist Movement and of the entire Jewish people at the development of the State of Israel in its first decade, hoped that the second decade would witness the creation of normal, peaceful and neighbourly relations between Israel and her Arab neighbours in a mutually beneficial partnership that would lead to the flourishing of the Middle East and its peoples.

The Council reiterated its appeal to public opinion to fight Arab endeavours to strangle Israel economically and expressed its deep concern over the interference with Israeli shipping and the transport of Israeli goods through the Suez Canal, in defiance of U.N. resolutions.

This belligerent Egyptian policy endangers world peace and violates the foundations of world trade, it stated. The Council called upon all countries to assist in the maintenance of international peace, stability and progress to ensure the unhindered use of the Suez Canal in the interest of the world.

The Council expressed the hope that the Soviet Government would grant Jews the elementary right to express their Jewishness in accordance with their consciences, to form associations for this purpose, to make contact with Jewish groups in other parts of the world in order to strengthen Jewish culture.

The Zionist Movement, while it notes with satisfaction every measure of progress towards the granting of these rights to Soviet Jews, cannot ignore the continuing non-recognition of these rights in the Soviet Union and must draw the attention of the world to this situation.

A伏ton separatum, by Herut, against German armament was struck from the agenda, 11 for retaining it, and 11 abstained, including some members of Mapam, Ahud Ha'avoda and Mizrahi.

**Absorption**

Absorption should be continued during immigrants to development areas.

The Absorption Department should continue its efforts to direct immigrants to agricultural settlements in kibbutzim and moshavim and other forms of settlement, to ensure suitable housing, and to create the conditions required for these purposes.

The liquidation of mabat and other types of temporary accommodation should be speeded.

The Council considers that the measures taken to solve the problem of immigrants are inadequate and appeals to all those concerned to provide employment for those immigrants.

Welcome immigrant members of the business profession, who should, as far as possible, be directed to settlement and development areas with a view to facilitating their adaptation to their new environment and to utilizing their professional know-how.

The Absorption Department should study the possibility of reducing the number of flats of buildings in immigrants' housing projects as regards size and standard.

The Council noted the statement of the Absorption Department that a commission of enquiry has been appointed into the distribution by lottery of flats in the Amishavim mabat and, without taking into account the time period, to the termination of the inquiry, requests the Executive to insist on the application of fixed rules ensuring its right to allocation of flats.

An amendment by Herut to instruct the Agency Executive to investigate the Amishavim incident was defeated by 45 to 22 votes. Among its opponents were members of the Neumann wing of the World Confederation of General Zionists, and Mizrahi.

**Move to Halt Imports Of Foreign Cloth**

Jerusalem Post Reporter

TEL AVIV.—The Minister of Commerce and Industry, Mr. Pinhas Sapir, has promised to take immediate steps to halt the import of manufactured cloth, and a committee will be set up in the next few days for this purpose, consisting of representatives of the Government, industry and the trades' unions. Imported cloth at present in the warehouses may be "frozen" and released only for export purposes.

This was disclosed by the Secretary of Commerce and Industry, Mr. Pinhas Sapir, who informed the Government that imports of cloth were causing damage to local manufacturers.

The advance, which is payable immediately, is intended to compensate cattle breeders for losses incurred through the Government's refusal to buy frozen meat at the current price last week. The cattle destined for the Government will be branded and left with the breeders.

The amount of the pension is the same as for Knesset Members: 4 per cent of the salary for each year of service (6 per cent for each year of service after the age of 60), up to a maximum of 70 per cent.

At present, only the dependents of a mayor or deputy mayor are eligible for any payment, and there is no limit as to the amount he could have had to be paid by a special act of the council.

The retail price of the frozen meat has remained stable at about IL4 a kilo for good cuts.

During the meeting, the management took the cloth importers to task for "exploiting" the weakness of foreign buyers for foreign-made material."

**J'lem Cinema Staffs May Strike Today**

BY H. BEN-ADIM

Jerusalem Post Reporter

TEL AVIV.—Prime Minister David Ben-Gurion on Monday evening visited the Agricultural Exhibition at Beit Dagan, on the eve of its closing.

President Isidor Ben-Zvi visited the exhibition on its final day on Tuesday. About 500,000 persons have seen the display.

Mr. Ben-Gurion and his party were shown round by the Minister of Agriculture, Mr. Avraham Kornblum, and Mr. David Ben-Gurion, Assistant Director-General of the Ministry.

Other resolutions adopted included several on the work of the Agency's Information Department, which came in for high praise; Jewish education in the Diaspora; with special reference to the establishment of Jewish day schools and the training of teachers; satisfaction at increased activities of the Institutes for Israel Culture throughout the world, and especially in Latin America; the advance of the Hebrew language; promotion of Bible study; the growing role of the women's Zionist organizations; several on progress made by the Department for Torah Education and Culture in the Diaspora; and a number calling on all local Zionist organizations to cooperate with the Hebrew World Union.

At the Council's evening session, Mr. Zalman Shazar, Chairman of the Jewish Agency Executive, congratulated the members of prominent Zionists and Jewish personalities who had died since the last Council meeting. He also extended congratulations to those who had celebrated jubilee anniversaries.

The Shalom Aleichem centenary, the 50th anniversary of the death of Haim Nahman Bialik, and the approaching centenary of Theodore Herzl were also noted.
